## Collaborative for Healthy Aging and Care

The New Brunswick Collaborative for Healthy Aging and Care is a growing coalition representing stakeholder organizations whose programs support New Brunswick's senior population that focuses its efforts in collaborating with organizations and individual citizens interested in healthy aging and care. Specifically, the Collaborative meets to determine the ways in which NB stakeholders can work together to shape aging in our communities by developing unique partnerships to build system capacity, impact culture and affect needed policy change.

A NBANH Associate Member since 2013.
